

entervo Report Catalogue

The most convenient and fastest access to your key figures

At a glance

Based on continuously stored data, entervo provides valuable key figures about your parking business. For easy access to these figures, the entervo Report Catalogue offers a wide range of professionally designed reports. Decades of experience in the field of reporting including customer feedback have been incorporated into the portfolio which offers the right solution for almost every requirement. The entervo Report Catalogue creates the necessary transparency to provide you with a clear basis for your decisions at all times and situations.

Details

▪ Reports

The Report Catalogue currently consists of 48 reports and is divided into 12 topics:

- Contract parker
- Accounting
- Operational Statistics
- LPR / Image review
- Counting
- Credit Cards (EMV)
- eTickets
- Retail Campaign Management
- Operations
- Personalised money value cards
- Exception transactions
- LPR-based Ticketless Parking

▪ Report packages

The reports are categorised as follows:

- The *basic reporting package comprising 7 reports* is part of the basic entervo V2R5 software at no extra charge.
- *18 module-related reports* are an integral part of optional entervo modules such as Retail Campaign Management.

- *23 optional reports*, divided into 8 different packages, complete the portfolio to meet your individual requirements.

▪ Export Options

All reports can be generated as PDF files and exported to CSV format. They offer the perfect basis for analyses with 3rd party products such as MS Excel.

▪ Permissions

Each report can be activated individually for specific entervo users.

▪ Archiving

Thanks to the seamless entervo integration, reports can be long-term stored e.g. several years using the entervo archiving module.

▪ Documentation

Detailed information including samples of all available reports can be found in the comprehensive report documentation.

Please contact your contact person at Scheidt & Bachmann or the responsible sales organisation.
